

2/2-Way, G 1/2 - G 2, Flange connection

Advantages/Benefits

- ▶ Zero differential pressure
- ▶ Body material: brass, grey cast iron
- ▶ Fluid temperature up to 180 °C
- ▶ High reliability
- ▶ Erosion resistant

Design/Function

Type 407 is a normally-closed servo-assisted on-off solenoid valve with a coupled armature / servo piston (circuit function A).

When de-energized, the spring acts on the armature to close the pilot channel in the piston.

When energized, the armature lifts to open the pilot channel to relieve the pressure. Even if there is no pressure differential, the armature lifts the coupled piston to open the valve.

Applications

- Fluids at higher temperatures, e.g. hot air, steam
- Vacuum
- Autoclaves (vacuum side)
- Relief of steam systems
- All industrial areas

burkert
Easy Fluid Control Systems

Solenoid Valve for steam and media at high temperatures up to 180 °C

Type 407

Technical Data

Circuit Function

A 2/2-way valve,
normally closed,
with 2-way pilot control

Body Material

Threaded: Body of brass, seat 1.4303
 Flanged: Body of grey cast iron, seat 1.4305
 Internal parts: Solenoid system 1.4105
 Servo piston of brass
 Cover: Brass (also for grey cast iron body)

Specifications

Orifice DN [mm]	Kv-Value	QNN-Value Air [l/min]	Pressure Range [bar]	Weight	Flange [kg]
	Water [m³/h]			Thread [kg]	
13	3,7	4000	0-10	1,0	-
20	5,0	5400	0-10	1,4	-
25	10,0	10800	0-10	1,9	-
32	16	17200	0-10	3,2	-
40	16	17200	0-10	3,65	-
50	36	36800	0-10	7,8	12,8

The pressure range is also valid for technical vacuum. All pressures quoted are gauge pressures with respect to the prevailing atmospheric pressure.

Operating Data (Valve)

Seal Materials/Fluids Handled/Temp.- Range

PTFE Neutral fluids, e.g. hot water, steam
0 to +180 °C

For more detailed information, please refer to resistance chart (Leaflet-No. 1896009).

Max. ambient temperature	+55 °C		
Max. viscosity	21 mm²/s		
Response times closing	DN opening		
		[ms]	[ms]
	13-25	0,1 - 0,2	0,3 - 0,5
	32-50	0,2 - 1,2	1,0 - 3,0

Measured at outlet port A from switching on until pressure rise to 90 % / pressure drops to 10 % at a working pressure of 1.5 bar.

Port connection G 1/2, 3/4, 1, 1 1/4, 1 1/2, 2
Flanged

Operating Data (Actuator)

Operating voltages	240, 230, 110, 24 V/50 110 V/60 Hz 24 V/=
	110, 220, 240 V/UC (universal current)
Voltage tolerance	±10 %
Power consumption	AC 100 VA (inrush) 35 VA/16 W (hold) DC 28 W at DN 50
Duty cycle	100 % continuously rated
Cycling rate	10-60 c.p.m.
Rating	with IP 65 cable plug

Installation / Accessories

Installation	as required, but preferably with solenoid system
upright	
Electrical connection	<ul style="list-style-type: none"> cable plug for 6-7 mm ø cable (supplied as standard) cable plug 1051-2007 with integrated single-phase bridge (standard for universal current versions)
